

Your four-year journey.

(As of 04/20/21. Please check back periodically for additional updates.)

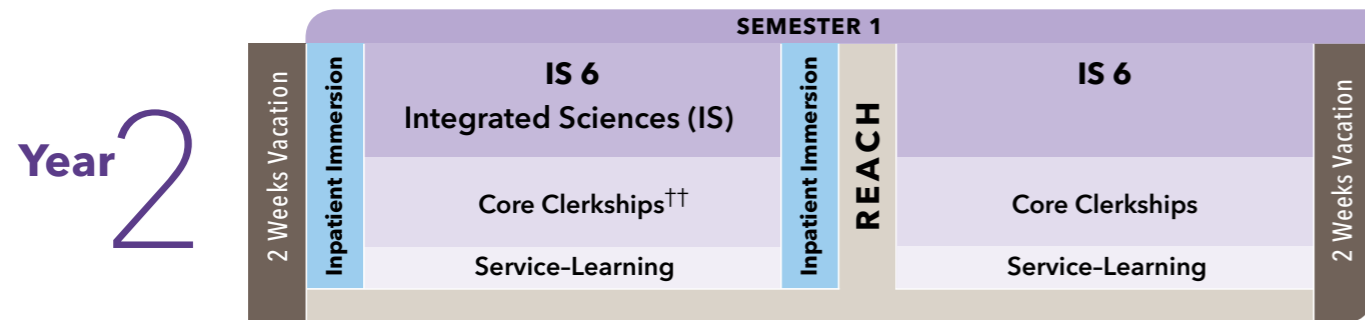

REQUIRED SCHOLARLY PROJECT
(Conducted anytime during Years 1-3)

THE INTEGRATED SCIENCES COURSES INCLUDE:

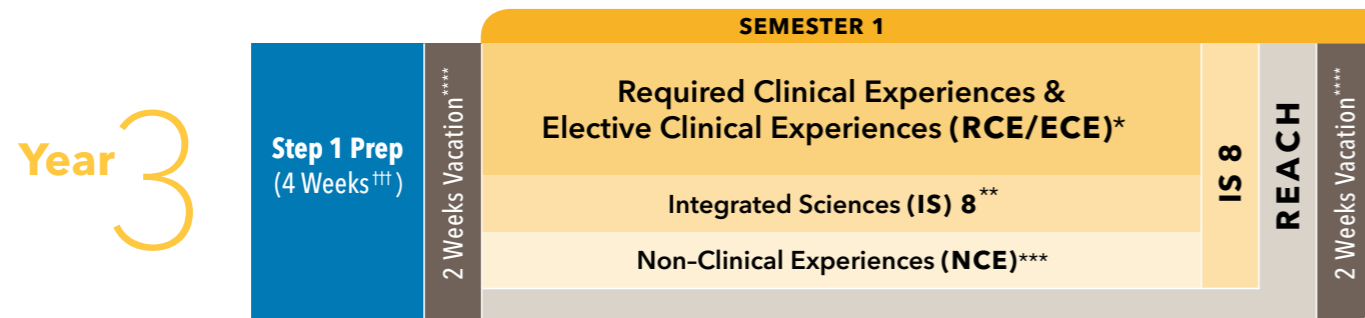

- Biomedical Science
- Clinical Science
- Health Systems Science

[†]FM=Family Medicine and IM=Internal Medicine

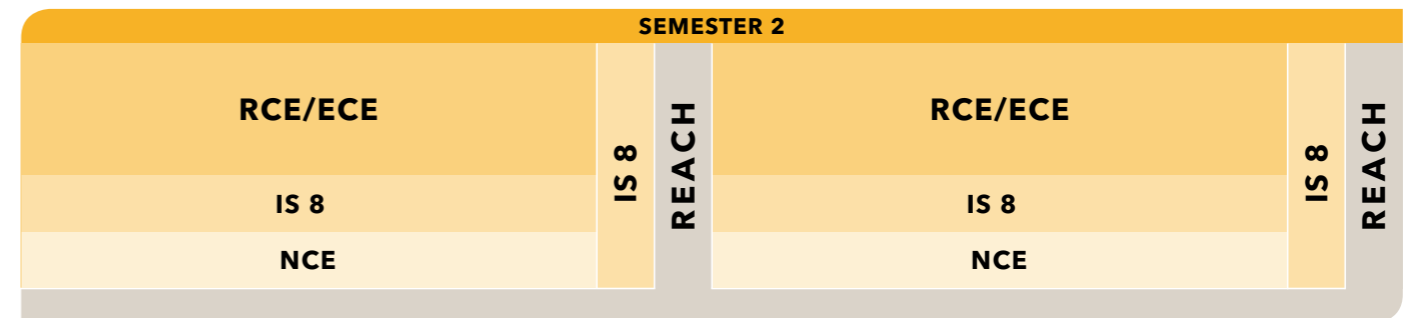

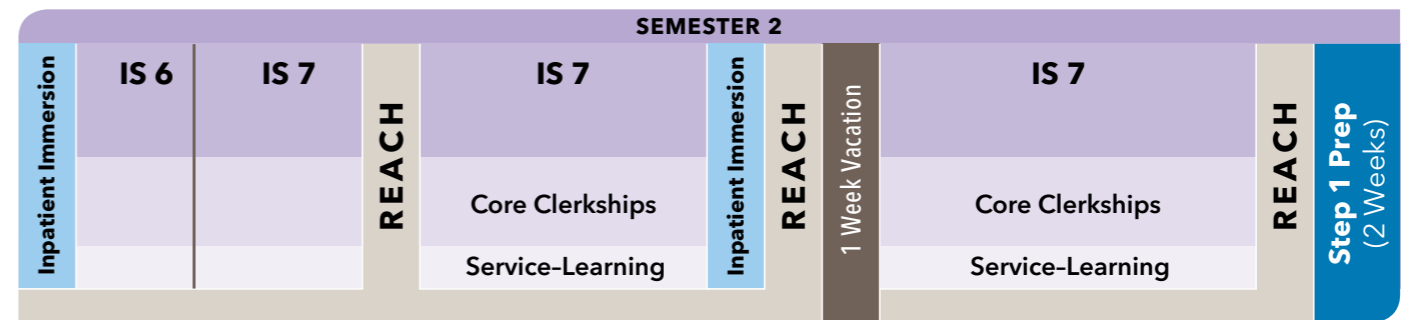

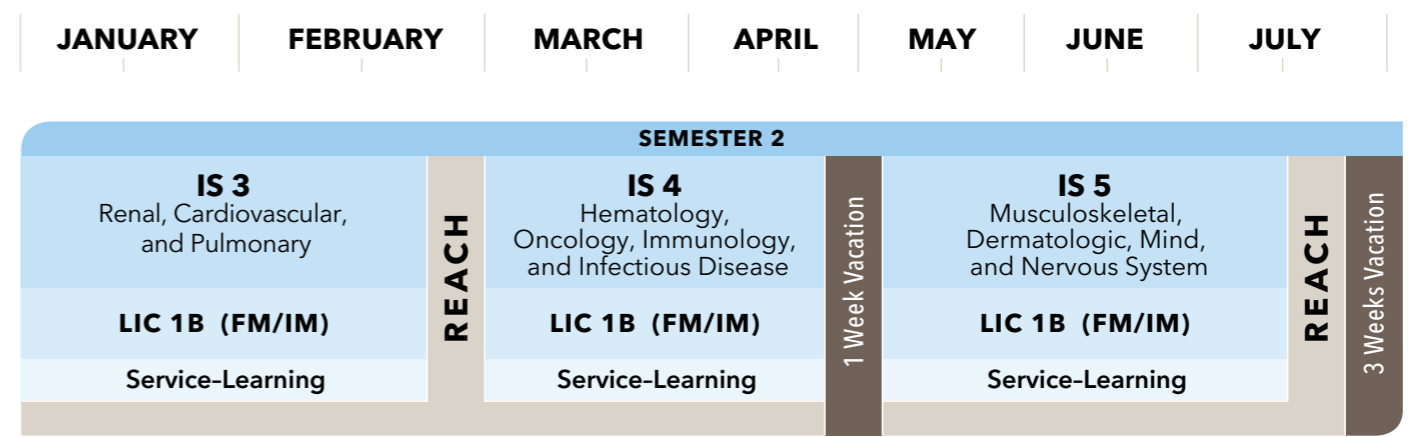

^{††}Core Clerkships include Family Medicine/Internal Medicine, Obstetrics & Gynecology, Pediatrics, Psychiatry, Surgery, and Emergency Medicine

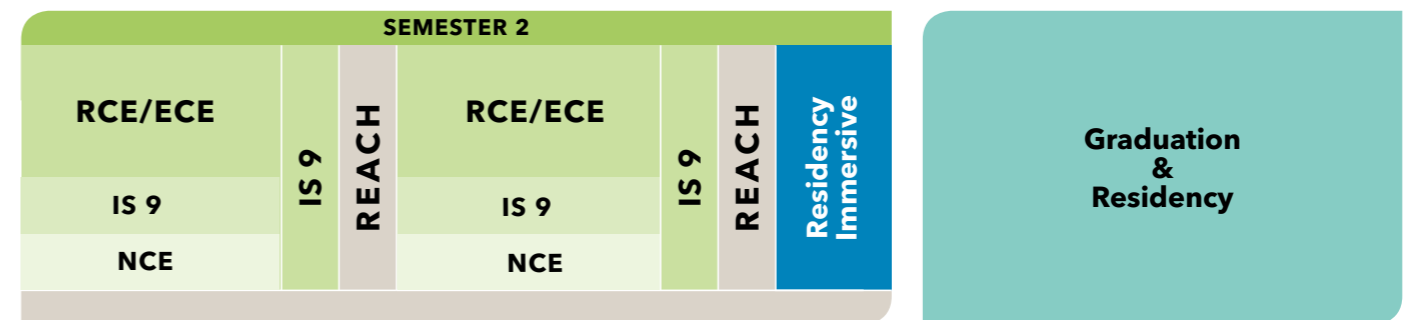

^{†††}Students take USMLE Step 1 before mid-September in Year 3.
^{*}Years 3 and 4 have 18 weeks of required clinical experiences: 4 weeks Advanced Medicine Selective, 4 weeks Advanced Selective (student's preference), 4 weeks Critical Care Selective, 4 weeks Community Medicine Selective, and 2 weeks Neurology Selective.

Students take USMLE Step 2 Clinical Knowledge (CK) before March in Year 3.

^{**}In Years 3 and 4, the Integrated Sciences courses will include intermittent weeks back on campus. Students will analyze cases, hone clinical skills, and learn advanced biomedical, clinical, and health systems sciences content relevant to both the USMLE Step 2 Exam and becoming an excellent physician.
^{***}Consists of 8 total weeks of HSS electives in Years 3 and 4 (including community engagement opportunities) and 4 weeks of scholarly projects in Year 3.
^{****}8 weeks of floating vacation in addition to scheduled weeks

The longitudinal threads of Advocacy and Leadership; Equity, Inclusion, and Diversity; Health Promotion; and Interprofessional Collaboration will be integrated throughout our curriculum.
^{****}8 weeks of floating vacation in addition to scheduled weeks

Graduation & Residency
